

J.W. Cole Advisor receives AssetMark Community Inspiration Award

J.W. Cole is proud to have such a great group of Advisors who recognize the need to be involved in their communities; we would like to acknowledge J.W. Cole Advisors Jerry Todd for receiving the [AssetMark Community Inspiration Award](#)!

The Community Inspiration Award acknowledges Gold or Platinum financial Advisors across the United States who are doing inspiring work in support of charitable organizations in their local communities. The organizations they assist each received a \$10,000 donation from AssetMark.

Jerry Todd of [Engage Retirement](#) became an avid supporter of the [National MPS Society](#) after his son was diagnosed MPS 2, also known as “Hunter’s Disease”. His wife, Lisa Todd, sits on the board as Treasurer of the National MPS Society. MPS is a disease caused by the body’s inability to produce specific

enzymes. The missing or insufficient enzyme prevents cells from recycling waste, resulting in the storage of materials in cells throughout the body. As the disease progresses, there is widespread damage throughout the body, including the heart, bones, joints, respiratory system and central nervous system, leading to a shortened lifespan.

The National MPS Society provides support to families and promotes research initiatives that affect MPS. The Todd’s \$10,000 donation from AssetMark will help the organization continue to provide these resources to families affected by MPS. Watch and learn more about their work with MPS [here](#).

“This type of money and donation is a huge impact,” said Mrs. Todd during a recent interview. “It’s going to help fund families to get access to the doctors and the researchers they need to help treat their child.”
